1: PREFABRICATED BACK ORTHOSIS <input type="checkbox"/> L0457 - Thoracic-lumbar-sacral orthosis (TLSO), flexible, provides trunk support, thoracic region, rigid posterior panel and soft anterior apron, extends from the sacrococcygeal junction and terminates just inferior to the scapular spine, restricts gross trunk motion in the sagittal plane, produces intracavitary pressure to reduce load on the intervertebral disks, includes straps and closures, prefabricated, off-the-shelf <input type="checkbox"/> L0621 - Sacroiliac orthosis (SO), flexible, provides pelvic-sacral support, reduces motion about the sacroiliac joint, includes straps, closures, may include pendulous abdomen design, prefabricated, off-the-shelf <input type="checkbox"/> L0642 - Lumbar orthosis (LO), sagittal control, with rigid anterior and posterior panels, posterior extends from L-1 to below L-5 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, prefabricated, off-the-shelf <input type="checkbox"/> L0648- Lumbar-sacral orthosis (LSO), sagittal control, with rigid anterior and posterior panels, posterior extends from sacrococcygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, prefabricated, off-the-shelf <input type="checkbox"/> L0650 - Lumbar-sacral orthosis (LSO), sagittal-coronal control, with rigid anterior and posterior frame/panel(s), posterior extends from sacrococcygeal junction to T-9 vertebra, lateral strength provided by rigid lateral frame/panel(s), produces intracavitary pressure to reduce load on intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, prefabricated, off-the-shelf <input type="checkbox"/> L0651 - Lumbar-sacral orthosis (LSO), sagittal-coronal control, rigid shell(s)/panel(s), posterior extends from sacrococcygeal junction to T-9 vertebra, anterior extends from symphysis pubis to xyphoid, produces intracavitary pressure to reduce load on the intervertebral discs, overall strength is provided by overlapping rigid material and stabilizing closures, includes straps, closures, may include soft interface, pendulous abdomen design, prefabricated, off-the-shelf	
2. WAIST SIZE: _____ Add Extender Panel: <input type="checkbox"/> Yes	
3. DIAGNOSIS (ICD-10): _____	4. LENGTH OF NEED: _____ <i>(lifetime if not indicated)</i>
5. SIGNATURE & DATE - By signing below, I confirm the medical supplies and/or medication herein are medically necessary and that this prescription is valid for One Stop Integrated Solutions Corp and its subsidiaries. I have had a face-to-face encounter with this patient within the last 6 months and have documented the condition related to this order in their medical record. I will furnish substantiating medical records upon request. ***Printed name and NPI required of signing physician if different from provider printed above*** Physician Signature: _____ Date: __/__/__ Printed Name: _____ Start Date: __/__/__	

BACK ORTHOSIS PRESCRIBING GUIDE

☐ L0457

Thoracic-lumbar-sacral orthosis (TLSO), flexible, provides trunk support, thoracic region, rigid posterior panel and soft anterior apron, extends from the sacrococcygeal junction and terminates just inferior to the scapular spine, restricts gross trunk motion in the sagittal plane, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps and closures, prefabricated, off-the-shelf

Indications

Sprains and Strains of the thoracic region
Displacement of intervertebral discs
Fracture of the vertebral column

☐ L0621

Sacroiliac orthosis (SO), flexible, provides pelvic-sacral support, reduces motion about the sacroiliac joint, includes straps, closures, may include pendulous abdomen design, prefabricated, off-the-shelf

Indications

Piriformis syndrome
Hip, pelvic, and upper leg pain
Low back pain

☐ L0642

Lumbar orthosis (LO), sagittal control, with rigid anterior and posterior panels, posterior extends from L-1 to below L-5 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, prefabricated, off-the-shelf

Indications

Spinal instability
Spinal stenosis
Chronic back pain

☐ L0648

Lumbar-sacral orthosis (LSO), sagittal control, with rigid anterior and posterior panels, posterior extends from sacrococcygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, prefabricated, off-the-shelf

Indications

Spinal instability
Spinal stenosis
Chronic back pain

☐ L0650

Lumbar-sacral orthosis (LSO), sagittal-coronal control, with rigid anterior and posterior frame/panel(s), posterior extends from sacrococcygeal junction to T-9 vertebra, lateral strength provided by rigid lateral frame/panel(s), produces intracavitary pressure to reduce load on intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, prefabricated, off-the-shelf

Indications

Spinal instability
Spinal stenosis
Chronic back pain

☐ L0651

Lumbar-sacral orthosis (LSO), sagittal-coronal control, rigid shell(s)/panel(s), posterior extends from sacrococcygeal junction to T-9 vertebra, anterior extends from symphysis pubis to xyphoid, produces intracavitary pressure to reduce load on the intervertebral discs, overall strength is provided by overlapping rigid material and stabilizing closures, includes straps, closures, may include soft interface, pendulous abdomen design, prefabricated, off-the-shelf

Indications

Chronic and Acute Strains, Bulging Discs, Facet Syndrome, Degenerative Disc Disease, Herniated Discs, Spondylolisthesis, Spondylosis, Pain in Mid Back, Back Problems
Post Operative Stabilization
